Exam Proctor: Quick Checklist

One page for every class test · Dashboard: exam-proctor-rhbo.onrender.com/dashboard · Help: nikhildj@xime.org

1 TO 2 WEEKS BEFORE

Plan

- [ ] Test date, time and class size sent to Nikhil
- [ ] Allowed sites listed, including sign-in pages (Handbook, Appendix A)
- [ ] Google Form link entered **without** `/viewform`
- [ ] "Flag leaving Chrome" off only if the test needs a desktop app
- [ ] Test created within your exam limit: `COURSE-SECTION-TEST`, times, new PIN, roster pasted
- [ ] Every test link checked in **Test a link**: all say Allowed
- [ ] Blocking on? Only with a complete, tested list; students on extension 3.1 and switched on

1 WEEK BEFORE

Prepare students

- [ ] Student Guide PDF emailed with the test code, date and allowed sites
- [ ] Alternative offered to students who can't use Chrome or don't consent
- [ ] Practice test created (10 minutes, same allowed sites)
- [ ] Practice join run in class or online; problems fixed

DAY BEFORE

Remind

- [ ] Reminder sent: Chrome, extension pinned, signed in to needed accounts, laptop charged
- [ ] PIN written down (not shared)
- [ ] Helpers know they watch on your signed-in screen (your tests are visible only to you and admins)

TEST DAY

Run

- [ ] −15 min: dashboard open (wakes the server), live view open
- [ ] −5 min: PIN announced; watch Joined X / Y; help "Not joined"
- [ ] Start: release the quiz
- [ ] During: red tiles first; many flags on one site = add it with "Allow"
- [ ] Extra time needed: Edit exam → Ends → Save

AFTER (+15 MIN)

Review

- [ ] Each flagged student: read flag + timeline + activity log together
- [ ] Dismiss innocent flags, confirm the rest, each with a note
- [ ] Export flags (CSV) and file it with the test records
- [ ] Anything confirmed: integrity process, student gets to respond

NEVER

Don't

- [ ] Delete a test before exporting its flags CSV
- [ ] Allow broad sites (google.com, office.com) or "whole site" for a Google Form
- [ ] Treat a flag as proof on its own
- [ ] Share student data beyond those who need it

Green tile: on an allowed site

Red tile: not allowed or another app, right now

Amber tile: offline 90 s+ (often Wi-Fi)

Grey tile: not joined yet
